DETAILED ACTION

Allowable Subject Matter

1. Claim 1-34 are allowed.
2. The following is an examiner's statement of reasons for allowance: the art of record, when considered alone or in combination, does not anticipate nor render obvious the claimed invention of an appliance defining a compartment having a wall with an opening and a door or lid with a hinge, the door or lid being comprised of a panel of transparent glass bordered by a frame, the frame having an upper and lower wall bridged by a peripheral wall defining a channel to house the peripheral edge of the glass panel, the glass panel having a central, transparent area permitting viewing of the inside of the compartment, and a peripheral, translucent or opaque area, having instructions printed on the side facing the interior of the compartment such that the instructions can't be seen when the door or lid is in the closed position but is easily readable when the door or lid is in the open position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bienick et al., Hermann et al., Kane et al., and Ross teach similar glass panels or printing in appliances.
